

**MUNYON'S EMINENT DOCTORS AT YOUR SERVICE FREE.**

**Not a Penny to Pay For the Fulltest Medical Examination.**

If you are in doubt as to the cause of your disease mail us a postal requesting a medical examination blank, which you will fill out and return to us. Our doctors will carefully diagnose your case, and if you can be cured you will be told so; if you cannot be cured you will be told so. You are not obligated to us in any way, for this service is absolutely free; you are a liberty to take our advice or not as you see fit. Send to-day for a medical examination blank, fill out and return to us as promptly as possible, and our eminent doctors will diagnose your case absolutely free.

Munyon's Dispensary, 100 and Jefferson Sts., Philadelphia, Pa.

**Monsoon Invades Texas.**

A series of destructive natural forces, untold suffering and a great deal of damage to cattle, horses and swine, the latter because of neglect by growers, in the coast counties of Texas. A mosquito of unusual size and with a long bill, said to be a new species in this section, is making life miserable for man and beast, and it is feared that the loss of cattle directly and indirectly due to the pest will be great if the scourge continues many days. Cattle seeking relief from the swarms of mosquitoes, which rise from the swamps and marshes in clouds, go miles to reach water, and stand up to their shoulders, occasionally dipping in the heads to freeze the stinging insects. Into the gulf and many other bodies of salt water along the coast cattle, horses and other animals seek relief, and refuse to come out for food. Many of them will die of thirst if not soon relieved.

In the rice field, which are located near the coast in nine counties, work has been abandoned because the men were driven from the fields. Wearing thick gloves and with their heads and necks incased in cloths saturated with strong lotions, their bodies were nevertheless easy prey for the mosquitoes. Railroads extending along the coast are suffering for patronage simply because the vast army of bloodthirsty insects drive the passengers to distraction. The Gulf and Interstate Railroad, which extends along the coast shore, is operating empty trains. Passengers are compelled almost to smother to death to get away from the pest while riding on this road and on other lines near the coast. Reports from Southwest Texas say that many cattle have died as a result of the plague. So. 37-'09.

**There's Plenty of Ice.**

London gets glacier ice from Norway, much of it having to be flumed and skidded for twenty miles, and a New York man, having secured a concession from the Chilean government, is planning to mine an "ice mountain" which stands in an inlet into the Straits of Magellan, and sell the output in Argentine cities. We are not so very far from such natural bases of supply, and some day, when the ice man gets too independent, a promoter may perhaps see his chance to do a stroke of business in a new line.—From the Boston Transcript.

**SENSE ABOUT FOOD**  
**Facts About Food Worth Knowing.**

It is a serious question sometimes to know just what to eat when a person's stomach is out of order, and most foods cause trouble.

Grape-Nuts food can be taken at any time with the certainty that it will digest. Actual experience of people is valuable to any one interested in foods.

A Terre Haute woman writes: "I had suffered with indigestion for about four years, ever since at attack of typhoid fever, and at times could eat nothing but the very lightest food and then suffer such agony with my stomach I would wish I never had to eat anything."

"I was urged to try Grape-Nuts, and since using it I do not have to starve myself any more, but I can eat it at any time and feel nourished and satisfied; dyspepsia is a thing of the past, and I am now strong and well."

"My husband also had an experience with Grape-Nuts. He was very weak and sickly in the spring. Could not attend to his work. He was put under the doctor's care, but medicine did not seem to do him any good until he began to leave off ordinary food and use Grape-Nuts. It was positively surprising to see the change in him. He grew better right off, and naturally he has none but words of praise for Grape-Nuts."

"One boy thinks he cannot eat a meal without Grape-Nuts, and he learns so fast at school that his teachers and other scholars comment on it. I am satisfied that it is because of the great nourishing elements in Grape-Nuts."

"There's Reason."  
It contains the phosphate of potash from wheat and barley, which combines with albumen to make the gray matter to daily refill the brain and nerve centers.

It is a pity that people do not know how to feed their children. There are many mothers who give their youngsters almost any kind of food, and when they become sick begin to pour medicine down them. The real way is to stick to proper food and be healthy and get along without medicine and expense.

Over read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

**To Pet a Horse.**

A horse trainer says that the average person does not know how to pet a horse. He says they do not pet them in the right place. Rub his eyelids or up between the ears. In petting horses most people slight these nerve centers. They stroke the horse's nose. While a well-behaved horse will accept the nasal caress com placently, he would much prefer that nice, soothing touch applied to the eyelids.—Farmers' Home Journal.

**Skim-milk for Pigs.**

Skim-milk is useful in pig feeding. When the milk is run through a centrifugal separator all of the butter fat, except the slightest trace, is removed, and consequently the pigs receive no fattening nutriment from the skimmed milk. It does contain some ash material, which builds up the bony frame work of the pig, and also some protein matter which builds up the muscles of the pig. Altogether, however, skim-milk is not a rich food by any means, and should not be relied on to the exclusion of other more concentrated foods.—Inland Farmer.

**Food for Hens.**

To know what feeds are best suited to the laying hen, and to supply them in suitable quantities, is an important part of the poultry keeper's education. A perfectly balanced ration is one that supplies every element needed by the hen to keep her in perfect health. An over-supply of improper food will drain and weaken the system, as the hen must pass off all material of which she can make no use. No one feeding formula is best under all conditions, so there is the element of chance in feeding as in all other poultry operations, until one is fully sure of his ground, then chance is eliminated.—Farmers' Home Journal.

**Sunflowers for Poultry.**

Sunflowers are grown by many poultrymen and farmers. The seed make an excellent feed for poultry and can be easily and profitably produced. The seeds can be sown in rows and the crop cultivated the same as corn. When ripe the seed is threshed out and fed to poultry either whole or ground. If the sunflower heads are thrown into the chicken yard, the birds will thresh the seeds out themselves with no expense to the grower. It is an excellent fattening food and when fed with cracked corn gives good results.

It is too late this season to sow the sunflower seeds, but it is a good thing to keep in mind for another year.—Farmer's Guide.

**Demands for Poultrymen.**

There are two new lines open to poultrymen, which have grown out of the modern developments of the business. One in which there is a large field, properly filled, is the raising of pullets in large numbers, to be sold each fall, under contract, to egg farmers. These egg farmers buy new stock every fall and find it difficult to get a proper supply. What better business could there be than to raise a supply for them. They will contract in the spring for a certain number of pullets, for fall delivery, at fixed price, per head. The breeder can sell the males for broilers and carry on his business without concern about the market price. The other grows out of the day-old chick business and the broiler plants, all of which will buy eggs for hatching, at a fixed price per hundred, to be delivered twice a week for almost the year around. This latter is a splendid business for the farmer or poultryman, with its sure market and fixed price. The demand is much greater than the supply, in both of these businesses.—T. C. K., in *Industrious Hen*.

**Rape for Pasture.**

Prof. M. L. Fisher, of the Indiana experiment station gives the following directions: This is essentially a hay and sheep pasture. Land should be prepared early by deep plowing and the seed sown about May 1, either in drills or broadcast. Small lots may be sowed with a hand drill in rows twenty-four or thirty-two inches apart, and cultivated. This method requires about two pounds of seed per acre. Set the drill for turnips. Broadcast sowing requires about four pounds of seed. If sown with a thin seeding of oats, the rape plants will come on after the oats is cut and produce considerable pasture. Rape is also sown with corn at the last cultivation for fall pasture.

When the plants are about twelve inches high, they are large enough to be pastured. If they are not pastured too close, they will make a second growth. The use of hurdles is recommended. Care should be taken not to pasture when the plants are wet with dew, as pig's ears become chafed and sore, and sheep are likely to bloat. One acre of rape will support from twenty to thirty animals for two months.

**Why Dairying Pays.**

An Australian dairy professor summarizes the advantages of dairying in the following remarks: It takes less fertility out of the soil than any other form of agriculture, and hence it is useful in following a well regulated system of rotation. It can be combined readily with other forms of agriculture or horticulture. The dairy provides in winter a quantity of stable manure in which the straw from the farm is profitably utilized. The by-products from the cow, skim-milk, whey and buttermilk, are a source of income in raising pigs and calves. Dairying gives constant and regular employment of a light character to every member of a farmer's family. Dairying inculcates habits of punctuality, industry, cleanliness and thrift of the farm. Cheese and butter are condensed products, and the cost of carriage, in comparison with their value, is less than that of any other farm product. The demand for good butter and cheese on the world's markets is unlimited, and so long as the quality is maintained, an all-around, even and profitable price can always be secured. The monthly check from the factory provides the mainstay in the household as against the precarious returns from yearly crops. In mixed farming the income from the dairy is the most reliable. The farmer's household, as a result of the dairy work, is always supplied with fresh milk and cream, butter, cheese, pork, bacon and veal. Storekeepers, traders, bankers, financial men and politicians all fully realize, after years of experience, that wherever dairy farming is conducted farmers are most prosperous, mortgages are rarely found and the value of landed property becomes considerably enhanced.

**Farm Notes.**

There is lots of milk in sweet corn and you can raise lots of feed to the acre with that crop.

I got more milk from the Hungarian than from oats and peas, with less growth of Hungarian, says a dairyman.

Don't feed much corn during the hot weather. It is fattening and gives too much heat. The same for buckwheat.

Kerosene emulsion is one of the most useful remedies against insects, especially those that suck the sap from the plants.

Learn to figure out a balanced ration for your fowls when you can, but most farmers will learn by practice to give the right feed in proper proportions.

A nervous hen cannot be relied on for a good setter. The chances are that she will get excited when the chicks come out and leave the nest prematurely.

Do not use kerosene on the bodies of poultry. It will make the feathers come out and sometimes kill the birds, but use the oil freely on the roosts and around the nest boxes.

A low down handy wagon is of great value in orchard and garden work. Such wagons are easily loaded, the tires are wide and they can be taken through fields where the ground is too soft to use narrow wagon tires.

The feeding value of hay is often lowered when it is stacked out in the open. In Virginia, for instance, a six to eight ton stack of timothy hay, after it has gone through the sweat, or in three or four weeks, will have from three to six hundred pounds of damaged hay.

**A Tale of a Tape Measure.**

The explorers were sitting one on each side of the President when Dr. Stein produced from his waistcoat pocket a small spring tape measure in a tiny aluminum drum. "It is a very curious thing," said Dr. Stein, "but in 1906, when I was in Eastern Tibet, I picked up this measure at the foot of an old ruin. I have carried it ever since and use it constantly." Dr. Sven Hedin took the measure in his hand. "This is mine," he said at once. "I lost it in Tibet in 1901," and he named the spot where he believed he had dropped it, with the number of miles it was distant from a certain great lake. This proved to be the spot where it was found.—*Pall Mall Gazette*.

**Quaintest Oath in Use.**

What is regarded as the quaintest oath still in use is that taken by the high court judges in the Isle of Man, the terms of which are as follows: "By this book and the contents thereof, and by the wonderful works that God hath miraculously wrought in the heaven above and the earth beneath, in six days and six nights, I do swear that I will, without respect or favor or friendship, loss or gain, consanguinity or affinity, envy or malice, execute the laws of this isle justly, between party and party, as indifferently as the herring backbone doth lie in the midst of the fish. So help me God and the contents of this book."—*Los Angeles Herald*.

"The Ragman Rolls" were a series of documents recording the progress of Edward I through Scotland in 1296, with the names of the nobles and others who did homage to him.

**The Statue of Liberty.**

The statue is of copper sheets, about one-tenth of an inch in thickness. The total weight is about 410,000 pounds, of which about 176,000 are copper and 234,000 iron, and cost a million francs (\$200,000). The height of the statue itself from the heel to the top of the head is 110 feet, and from the base to the top of the torch is 150 feet. In regard to the preservation of the work, perhaps the words of M. Bartholdi himself are in order: "Since all the elements of its construction are everywhere visible on the inside, in all their details, it will easily be kept in good condition."

**No Hope.**

"Did she refuse him?" "Practically; she said she would not marry him till he arrived at years of discretion."—From the Brooklyn Life.

**VALUE PAINTED ON.**

Well painted is value added whether the house be built for one thousand dollars or ten thousand. Well painted means higher selling value, and higher occupying value—for there's an additional pleasure in living in the house that is well dressed.

National Lead Company assist in making the right use of the right paint by sending free upon request to all who ask for it, their "Houseowners' Painting Outfit No. 49." This outfit includes a book of color schemes for either exterior or interior painting, a book of specifications and an instrument for detecting adulteration in paint materials. Address National Lead Company, 1902 Trinity Building, New York City, and the outfit will be promptly sent to you.

Peat a woman with a hammer and you'll make gold.—Russian.

**BABY HORRIBLY BURNED**

By Boiling Grease—Skin All Came Off One Side of Face and Head—Thought Her Disfigured For Life—Used Cuticura: No Scar Left.

"My baby was sitting beside the fender and we were preparing the breakfast when the frying pan full of boiling grease was upset and it went all over one side of her face and head. Some one wiped the scald with a towel, pulling the entire skin off. We took her to a doctor. He tended her a week and gave me some stuff to put on. But it all fostered and I thought the baby was disfigured for life. I used about three boxes of Cuticura Ointment and it was wonderful how it healed. In about five weeks it was better and there wasn't a mark to tell where the scald had been. Her skin is just like velvet. Mrs. Hare, 1 Henry St., South Shields, Durham, England, March 22, 1908."

Potter Drug & Chem. Corp., Sole Props. of Cuticura Remedies, Boston, Mass.

To lead a virtuous life is pleasant. Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

Win your way by yielding to the tide.—Pope.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. The favorite family laxative.

Let a folly and wisdom come upon us with years.—German.

H. H. GREEN'S SON, of ATLANTA, Ga., are the only successful Dropsy Specialists in the world. See their liberal offer in advertisement in another column of this paper.

Wisdom in the mind is better than money in the hand.—Cingales.

- Rough on Rats**, unbeatable exterminator.
- Rough on Hen Lice**, Nest Powder, 25c.
- Rough on Bedbugs**, Powder or Liq'd, 25c.

**The Hint That Failed.**

Wife—A tree, you know, gets new clothes every spring—hat, parasol, everything! Husband—Yes, darling, and makes them all itself.—*Fliegendo Blaetter*.

In summer children eat unripe fruit with resulting pains. Mothers should have Paikiller (Perry Davis') on hand.

The tyrant is dead, but not tyrannous.—German.

**FOR COLDS AND GRIP.**

Hick's CAPSICINE is the best remedy—relieves the aching caused by feverishness—cures the cold and restores normal conditions. It is liquid—effects immediately. 10c, 25c and 50c, at drug stores.

TWENTY DIFFERENT FOUR-COLOR VIEWS OF NEW YORK, CONY ISLAND and ALBUQUERQUE, N. M. For sale by Druggists, or sent Direct by Special Agent, KING'S BUSINESS COLLEGE, 25-27 N. 4th St., St. Louis, Mo. Price 10c per set. Sample 5c. Send for Circulars.

**Worms**

"Cascarets are certainly fine. I gave a friend one when the doctor was treating him for cancer of the stomach. The next morning he passed four pieces of a tape worm. He then got a box and in three days he passed a tape worm 45 feet long. It was Mr. Matt Freck, of Millersburg, Ia. I am quite a worker for Cascarets. I use them myself and find them beneficial for many ailments caused by impure blood." Chas. E. Condon, Lewistown, Pa., (Mifflin Co.)

Messart, Palatable, Potent, Taste Good, Do Good. Never Sickens, Weakens or Grips. 10c, 25c, 50c. Never sold in bulk. The genuine label striped C. C. Guaranteed to cure or you money back. 521

**Putnam Fadeless Dyes**  
Color more goods brighter and faster colors than any other dye. One tin package colors all fibers. They dye in cold water hotter than any other dye. You can dye any garment without ripping apart. Write for free booklet—How to Dye, Wash and Fix Colors. MORTIMER DRUG CO., Quincy, Illinois.

**Honored by Women**

When a woman speaks of her silent secret suffering, she trusts you. Millions have bestowed this mark of confidence on Dr. R. V. Pierce, of Buffalo, N. Y. Everywhere there are women who bear witness to the wonder-working, curing-power of Dr. Pierce's Favorite Prescription—which cures the suffering sex from pain, and successfully grapples with woman's weaknesses and stubborn ills.

**IT MAKES WEAK WOMEN STRONG IT MAKES SICK WOMEN WELL.**

No woman's appeal was ever misdirected or her confidence misplaced when she wrote for advice, to the WORLD'S DISPENSARY MEDICAL ASSOCIATION, Dr. R. V. Pierce, President, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets Induce mild natural bowel movement once a day.

**For Health**

Are you one of the many women who suffer from some of those ailments which are caused by female trouble? If you are, you want to get well, don't you? You wish to get rid of the pain and the misery so you may enjoy good health and be happy.

Thousands of other ladies, suffering as you suffer, feeling as you feel, have successfully used that well-known medicine for women, **Cardui**. They all say Cardui is just what they needed to relieve pain and bring back health. Why not try Cardui yourself?

**TAKE CARDUI**

**The Woman's Tonic**

Prepared from pure vegetable ingredients, it cannot possibly hurt you. On the other hand, it is almost sure to help you, judging by its success of more than half a century.

Note this letter from Miss Boyd Richardson, Danish, N. C. She writes: "I was sick in bed and could not stand on my feet more than just a little while at a time. After taking three doses of Cardui, I began to mend. After I had used it for a week I was walking about. I believe it is a wonderful medicine."

Don't wait—try Cardui and get well.

**Interesting Facts**

The only effective and reliable remedy known for Gout, Dyspepsia, Jaundice, Kidney and Bladder troubles, Constipation, Headache, Biliousness and all disorder of the bowels is

**DR. D. JAYNE'S SANATIVE PILLS**

For several generations they have been a household necessity for relieving and curing complaints of this kind. They are safe and sure in every instance. As a laxative, purgative and cathartic they are unexcelled.

Sold by druggists everywhere in 25c and 10c boxes

**XANTHINE FOR THE HAIR**

Restores Gray Hair to Natural Color REMOVES DANDRUFF AND SCURF. Invigorates and prevents the hair from falling off. For sale by Druggists, or sent Direct by XANTHINE CO., Richmond, Virginia. Price \$1 Per Bottle; Sample Bottle 35c. Send for Circulars.

**FOR PINK EYE**

Cures the sick and acts as a preventive for others. Liquid given on the tongue. Safe for broad masses and all others. Best kidney remedy; 50 cents and \$1 a bottle; \$5 and \$10 the dozen. Sold by all druggists and horse goods houses, or sent, express paid, by the manufacturers.

SPOHN MEDICAL CO., Chemists, GOSHEN, INDIANA

**HAMLIN'S WIZARD OIL GREAT FOR PAIN**

**SOUTH EASTERN DENTAL COLLEGE**

First Session Opens October 5, 1909

New building; New Equipment; centrally located; strong faculty and ample WHITE clinic. Write for attractive announcement. Address DR. CLARENCE L. STOKES, Registrar, 427 Austell Building, Atlanta, Ga.

**Kings Business College**

A SCHOOL WITH A REPUTATION FOR DOING HIGH GRADE WORK.

One of the best equipped schools in the South. THE LARGEST, THE BEST. The strongest faculty. MORE GRADUATES IN POSITIONS than all other schools in the State.
